- **Bluebird house with post in backyard will not convey**

This stunning, custom-built home by Douglas Builders is ready for a new set of owners. With extremely comfortable living space and several nice extras, this is a well thought out floor plan. The spacious living room is open to the dining room and kitchen, making this a fantastic house for entertaining. A designated wet bar area with beverage

cooler is adjacent to the living and dining area also. The living room boasts double crown molding, coffered ceiling and a stone fireplace wall with built-ins. The kitchen is a cook's dream with large island, wall oven/microwave combo, pantry, gas cooktop and custom vented hood. A powder room off the living room for guests is another thoughtful

touch. The primary suite offers plenty of space for traditional bedroom furniture. The primary bathroom and closet are also generously sized with custom closets, double vanities and a tiled, walk-in shower. With LVP throughout the first floor, cleaning is a breeze. The split floor plan means that guests have their own privacy on the other side of the home.

The bonus room offers another possible guest suite option, office, or man cave. The fact that it has its own full bathroom makes it a versatile space. There is also a closet and access to the massive walk-in storage from the bonus room. This home offers an abundance of storage space! The garage is oversized with a bump-out, providing additional storage. Other nice extras in this home are an encapsulated crawl-space, gutter guards, tank-less water heater and an invisible fence.
